

MALAY JOSHI, UI/UX DESIGNER

Ahmedabad, India | 8734863648 | malayj66@gmail.com | [LinkedIn](#) | [Portfolio](#)

UI/UX Designer with 2 years of experience crafting user-centered digital experiences across web and mobile platforms. Specializes in designing for varied sectors, including Decentralized Finance (DeFi) and web3 Technology, with a focus on translating complex requirements into clean, accessible interfaces. Skilled in conducting user research and applying design thinking methodologies to address challenging user needs through continuous iteration and validation. Proven ability to bridge design and development by partnering closely with Development teams, product owners, and stakeholders to ship responsive, impactful solutions in fast-paced environments.

EXPERIENCE

UI/UX Designer | ZEEBU, Ahmedabad, Gujarat

Jul 2024 – PRESENT

ZEEBU MASTER APP

- Design complete mobile DeFi experience showcasing portfolio analytics, stake oversight, token exchange hub, and ZBU acquisition tools with live risk assessment displays.
- Integrate seamless wallet integration via MetaMask/WalletConnect plus user preferences panel, night mode switch, alerts system, and affiliate rewards tracker.
- Created sophisticated trading panels featuring currency picker, optimal path analyzer (PancakeSwap/Uniswap), aggregator CEX/DEX selector, and deal status tracker.
- Design stake management screens revealing total commitment, yield progression graphs, maturity countdowns, and options for purchase/boost/prolong/redeem/collect.
- Develop a proper design system powering Zeebu Master app, establishing visual and functional consistency across all screens through creation of components, variants, variables, and supporting assets.

ZEEBU INVESTMENT PLATFORM

- Build streamlined investment interface for Zeebu ecosystem, supporting wallet onboarding, multi-asset selection from connected wallets, and risk-tiered yield configurations with real-time allocation previews.
- Craft user-friendly investment entry screen featuring amount entry fields, tiered risk selectors, and liquidity commitment timelines for NFT position creation.
- Designed portfolio overview cards displaying current holdings across ZBU, stablecoins, and ETH with maturity timers, reward accrual status, and redemption controls.
- Shaped performance analytics section combining transaction logs, cumulative returns dashboard, and interactive allocation charts for comprehensive position monitoring.
- Delivered Figma prototypes following detailed specification document, emphasizing clean typographic hierarchy, brand-aligned color systems, and fluid micro-interactions for optimal DeFi user experience.

ZEEBU ACHIEVEMENT DASHBOARD

- Designed comprehensive analytics dashboard for Zeebu's settlement platform, visualizing ZBU token burns, invoice settlements, and reward volumes to highlight total success metrics.
- Created intuitive data tables and charts for recent invoices, current rates, and ZBU pool stats (burned vs. yet-to-burn), improving data accessibility for telecom operators and institutions.
- Developed global user list interface with map visualization and growth metrics, enabling quick insights into 139+ active institutions and daily settlements.
- Integrated filter dropdowns and responsive layouts across multiple screens (dashboard, totals, lists), streamlining navigation for high-volume transaction monitoring in Web3 environment.
- Collaborated on high-fidelity Figma designs based on product requirements, focusing on dark-mode UI, precise data rendering, and celebratory elements to boost user engagement.

UI/UX Intern | ZEEBU, Ahmedabad, Gujarat

Jul 2024 – OCT 2024

Zeebu (Figma & Design Systems)

- Learned and applied Figma fundamentals including frames, layout grids, and responsive web and mobile screen design for real client projects.
- Built reusable design systems with components, variants, color styles, and typography tokens to keep Zeebu interfaces visually consistent.
- Used Auto Layout and constraints to create scalable, responsive UI patterns that adapt smoothly across different screen sizes.
- Created interactive Figma prototypes communicating user flows and micro-interactions while leveraging plugins for icons, illustrations, and content generation to accelerate design workflows with PMs and developers.

KEY ACHIEVEMENTS

- Designed DeFi products for 1000+ Web3 users with proven engagement impact.
- Led user research shaping product strategy through trader insights.
- Achieved 25% engagement improvement via intuitive mobile DeFi flows.
- Reduced operational errors by 25% across multiple platforms through intuitive interface design.
- Maintained consistent brand identity while adapting designs for diverse user groups and technical constraints.

SELECTED PROJECTS

- **Settlement Analytics Dashboard, Zeebu (2025):** Real-time settlement dashboard tracking burns, rewards, invoice volumes, and treasury metrics with dynamic rate charts and institution analytics.
- **Investment Panel, Zeebu (2025):** Intelligent DeFi yield optimizer featuring wallet onboarding, risk-adjusted APY selection, fund allocation previews, and NFT position tracking for seamless investment lifecycle management.

SKILLS

Design Process

- User Research, User-Centered Design, Wireframing, Prototyping, Usability Testing, User Journey Mapping, Information Architecture, Interaction Design, Visual Design, Design Systems, Brand Consistency, Accessibility Design.

Tools & Technologies

- Figma, Adobe Illustrator, Framer, Spline 3d, Lovable.dev AI builder, Google Antigravity, Notion, WordPress, SVGator, HTML, CSS, Responsive Design.

Communication & Collaboration

- Stakeholder Management, Cross-functional Collaboration, Design Presentations, User Research Facilitation, Requirements Gathering, Design Documentation, Client Communication, Team Leadership.

Research & Testing

- User Interviews, Surveys, A/B Testing, Usability Studies, Heuristic Evaluation, Card Sorting, Tree Testing, Ethnographic Research, Competitive Analysis.

EDUCATION

Pursuing Bachelor of Computer Applications (BCA)

Swami Sahajanand College of Commerce and Management.

Bhavnagar, Gujarat

CERTIFICATION

UI/UX with Figma and Adobe XD

Completed an in-depth UI/UX design course in Figma and Adobe XD, gaining advanced skills in wireframing, prototyping, and user testing. This experience enabled me to design intuitive, user-centric interfaces that effectively meet user needs and business goals.
